

The Price of Fame

VERSE

Isn't that the way it is? Something's always got to give
So the story goes something we all know (but everybody grows)

Living for my purity, toiling in obscurity
Monumental bore, must be something more

PRE-CHORUS

For the life of me
Can't design a way to get with it
Never gonna happen
If it's something you can't see

Really is no way to live, Years go by without a win
Can I persevere? Among my biggest fears

For the life of me
Can't design a way to get with it
Never gonna happen
If it's something you can't see

Once I had dream,
Not for sure if I'm still in it.
Eat away the doubt for something,
Lost inside of me

CHORUS

And I saw my name
It was the price that I paid.
Its when the promise and the future
Could be gone before the dawn
Or stay the same

And I saw my name
It was the price of fame
It's that shot of optimism
Right before you've lost it all
It's that feeling of rejection just before you get the call
To play the game.
